Dear Customer,

Congratulations & thank you for choosing “Ceiling Mounted Clothes Dryer” - Made By My Home Products Co. This type of Clothes Dryers (Airers) have become essential in all homes especially in urban areas. With the increase in demand, many producers/suppliers are taking advantage and are offering cheap quality Dryers just to attract the buyers with low prices.

We at My Home Products, have done extensive research by recognising the importance of the Dryers, developed the Design and manufactured this Dryer (with our own Parts), with Quality & Durability. Our Dryers are admired by customers who care for Quality & Long Term Usage.

We are sure that all your Family Members will be glad to use our Dryers which are Strong & Durable. **INSTALLATION:** Please observe the “Installation Manual” carefully and install the Dryer either by yourself or by any good technician or carpenter, by using proper tools.

Please use the Dryer properly and carefully and do not put excess clothes, for Trouble Free & Long Lasting usage.

Our Hearty Wishes to all the family members, for drying your clothes.

Page-3: Ceiling Holders Installation

- 1** Mark the position from atleast 6 inches distance from the wall.

- 2** Mark the holes with a pencil / pen / marker.

- 3** Drill Holes (10mm for Anchor Bolts, 8mm for screws accordingly).

- 4** Insert the Nylon Sleeves, Anchor Bolts & fasten the ceiling holder.

- 5** Use one of the pipe to measure distance from the first holder to mark for the second holder.

- 6** Follow Steps 1,2,3,4 for installing the second holder.
The final installation should look like this:

Page-4 : Pipe End Caps & Wall Bracket Installation

- 1** Mark the holes for installing the wall holder, at a comfortable height of approximately 5 Feet. (from the ground).

- 2** Drill two holes with 8mm Drill Bit, as shown.

- 3** Insert the Nylon Sleeves.

- 4** Fasten the screws with the tubular spanner.

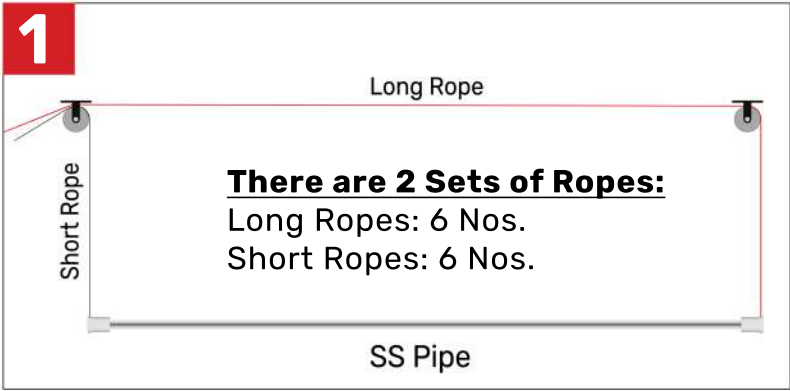

5

Page-4 (Step: 6): Take the long rope, tap the Plastic End (fully without gap) to the Pipe End (with a plastic hammer, as shown).

Note: Fix all Long Ropes to one side of the Pipes.
Fix all Short Ropes to the other side of the Pipes.

6

2 Take one end of the long rope & insert into the 1st. ceiling holder.

3 Take one end of the short rope & insert into the 2nd. ceiling holder.

4 Insert the Cones as shown:

5 Tie knot at the desired height.
